6/9/77

Dear Art,

Today I got a report that with a little questioning led me to believe that of all the people in the assassins committee hearing your stringer is the one who made a tape of what interests me - Lane teeing off again, beginning with the press.

So I called him. He is the guy. The tape is in the mail to you.

Your immediate interest is Burke. You mentioned her only to me.

But you have more - at least this on Lane and a little of Hall, too.

If it is no problem to you I'd appreciate it if when you listen to this tape you dub Burke and Lane off separately for me. I'll be storing them separately.

Called you three times, station to reduce the cost, and each time got the recorded message about the two of you living it up. So I left no message.

Because I have to get to bed I also did not make it person-to-person so I could. That is, without being awakened by a call back.

Looking forward,
